

Adopt the following changes to Agenda Item No. 12:

WE THEREFORE MOVE THAT THE BOARD OF SUPERVISORS:

Direct the Director of the Department of Regional Planning, in coordination with the Fire Chief, Interim Director of the Department of Public Health, and Director of the Department of Public Works to take the following actions:

1. Convene a Strike Team to assess the conditions, regulatory compliance and potential public health and safety risks associated with existing oil and gas facilities in unincorporated Los Angeles County. This assessment should include an inventory of these facilities, an evaluation of compliance with existing permits, review of emergency response plans, onsite visits and safety audits. Sites should be prioritized for further action based on highest health or environmental risks. As sites are prioritized for review, consideration should be given to the age and history of the facility, the proximity of nearby communities (specifically disadvantaged communities) or sensitive populations, and whether the facility is operating using ~~controversial~~ well stimulation techniques consistent with California Senate Bill 4 (such as hydraulic fracking);
